Governor

Situation Report # 9

Friday May 7, 2010 at 1200 hrs EDT

David Halstead
State Coordinating Officer

Current Situation:

- Unified Command estimates release rate of oil from Deepwater Horizon at 5,000 barrels per day.
- This event has been designated a Spill of National Significance.
- Unified Command continues with a comprehensive oil well intervention and spill response plan following the April 22 sinking of the Transocean Deepwater Horizon drilling rig 130 miles southeast of New Orleans.
- The pollution containment chamber (dome) was lowered into the water on 5/6/10. The dome is expected to be operational on 5/9/10.
- 8,497 personnel are working the on and offshore response, with an additional 2,500+ trained volunteers.
- To date, approximately 1.89 million gallons of an oil-water mix has been recovered.
- Response vessels used: 256
- Dispersant (in gallons): 267,195 deployed/ 317,591 available
- Oil containment boom (barrier in feet): 876,936 deployed/ 1,287,764 available.
- 11 staging areas are in place to protect sensitive shorelines:
 - AL – Dauphin Island
 - FL – Panama City, Pensacola
 - LA – Port Fourchon, Port Sulphur, Shell Beach, Slidell, Venice
 - MS – Biloxi, Gulfport, Pascagoula
- NOAA restricted offshore fishing (more than 20 miles off the coast) in Federal Waters between the mouth of the Mississippi River to Pensacola for a minimum of 10 days.
- The National Park Service activated 2 incident management teams with approximately 78 people in the Gulf region on 5/6/10. There are 8 national parks in the Gulf area.
- As of 5/7/10, the oil spill is 34-45 miles from the Gulf of Mexico Loop Current.

Florida Specific:

- The 72-hour NOAA trajectory shows *no* oil landfall in Florida.
- Oil Containment Boom (in feet)
 - 93,500 deployed in Florida
 - Pensacola staging area: 160,900 deployed/ 11,300 staged/ 20,000 ordered
 - Panama City staging area: 6,000 staged/ 20,000 ordered
- In accordance with established plans, protective booming is now being deployed in the coastal areas of Escambia, Okaloosa, and Santa Rosa Counties.
- There are 401 British Petroleum (BP) and contract personnel working on the effort in the Pensacola area.
- BP issued a 25 million dollar block grant to Florida, which is being used for booming costs.
- The incident command post is established in the U.S. Coast Guard's Sector St. Petersburg for the west coast of Florida. A virtual planning section is set up for Sector Key West.

County EOC Activations

- Bay, Level 1 (Full)
- Gulf, Level 2 (Partial)
- Escambia, Level 2 (Partial)
- Franklin, Level 2 (Partial)
- Okaloosa, Level 2 (Partial)
- Santa Rosa, Level 2 (Partial)
- Wakulla, Level 2 (Partial)
- Walton, Level 2 (Partial)

State Actions:

- State Emergency Operations Center (EOC) is at a Level 2 (Partial) with Florida Department of Environmental Protection (FDEP) as the lead agency.
- EM Constellation database: Deepwater Horizon
- Governor's Executive Orders 10-99 and 10-100 declared a state of emergency for:
 - Escambia, Santa Rosa, Okaloosa, Walton, Bay, and Gulf (10-99)
 - Franklin, Wakulla, Jefferson, Taylor, Dixie, Levy, Citrus, Hernando, Pasco, Pinellas, Hillsborough, Manatee, and Sarasota (10-100)
- The State Emergency Response Team:
 - Conducting daily conference calls with county and emergency management partners to ensure there are open lines of communication and information flow.
 - Participating in conference calls held by the Federal On-Scene Coordinator and the Sector Mobile Unified Command.
 - A 27-member Forward-State Emergency Response Team (F-SERT) is on-scene at the Unified Command post in Mobile.
 - 8 SERT Liaisons comprised of FDEP staff are assisting local emergency management develop contingency plans for booming operations in Escambia, Santa Rosa, Okaloosa, Walton, Bay, and Gulf Counties.
 - 5 Regional Coordinators are deployed to coastal areas.
- Representatives from British Petroleum (BP) and the U.S. Coast Guard are stationed at the State EOC and at staging areas and incident command posts in Florida.
- ESF 15 –Volunteers and Donation and ESF 14 – Public Information have launched a "Coast Watch" public information campaign to encourage individuals to watch the coast and report any effects from the oil spill to authorities.
- The Boom Coordination Cell is processing any additional boom priority requests from counties outside area contingency plans.
- A Technology Review Cell is being set up to assess alternative clean-up technologies provided by the public and stakeholders.
- ESF 18 – Business, Industry and Economic Stabilization's first economic loss survey for Florida businesses closes today. A new survey with stakeholders input will be released.
- The Florida Department of Financial Services has opened a toll-free Consumer Helpline at 1-877-My-FL-CFO (1-877-693-5236) to assist business owners impacted by the spill (open Mon.-Fri. 8am-5:30pm EDT).

Local States of Emergency

- Bay
- Dixie
- Escambia
- Franklin
- Gulf
- Okaloosa
- Santa Rosa
- Sarasota
- Taylor
- Wakulla
- Walton
